No. 12, Wayao 4th Road, Wulian Community, Longgang Street, Longgang District, Shenzhen, Guangdong, China

## Drone parameters

### Recommended configuration

- Flight control (optional)
- Power system: X11
- Battery: 14S 28000mAh

### Overall weight (without battery)

- 23-27 kg

### Maximum take-off weight

- Maximum spraying take-off weight: 64 kg (near sea level)
- Maximum spreading take-off weight: 74 kg (near sea level)

### Hover time

- Hover for 22 minutes with no load (@28000mAh & take-off weight 37 kg)
- Spray full load and hover for 10 minutes (@28000mAh & take-off weight 64 kg)
- Sowing and hovering for 9 minutes with full load (@28000mAh & take-off weight 74 kg)

### Maximum effective spray width

- 6-10 m (About 1.5-3 m from the crop height)

### Spraying method

- Down pressure spraying (4-8 nozzles, optional)
- Centrifugal spraying (4 nozzles, optional)

### Medicine box volume

- Full load 30L (working load, full load 30KG)

### Seeding box volume

- 40L (Internal maximum load, 40KG)

## Characteristic

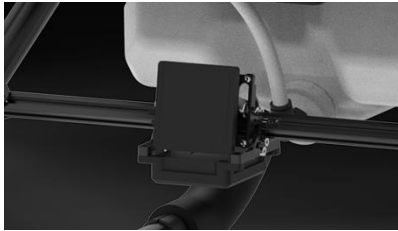

X4-30 Agricultural Plant Protection Flying Platform

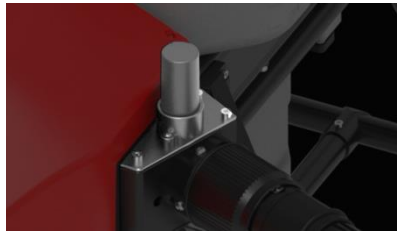

X4-30 Agricultural Plant Protection Spreading Platform

One machine multi-purpose platform (water mist, sowing)

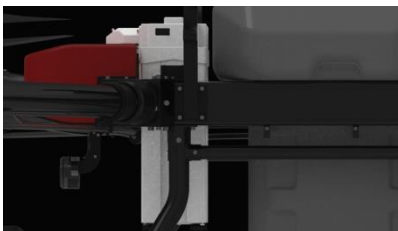

Worry-free installation of front, rear, left, right, up and down radar

Support RTK installation

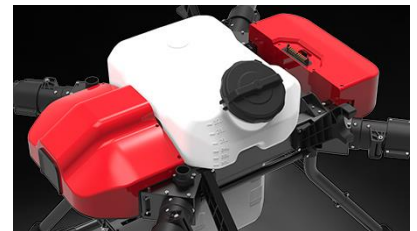

FPV module tail light installation

Quick release battery

Quick release water tank

IP65 grade waterproof
